

# UP-N-OUT<sup>®</sup>

ULTIMATE MARINE LADDERS By Scandia Marine Products

## THE ULTIMATE DINGHY & SMALL BOAT LADDER

Up-N-Out ladders are designed for use on inflatables or hard-sided dinghies and small to mid-sized boats. Up-N-Out's unique interlocking rungs allow our ladders to be quickly compacted, deployed and stored. Constructed of electro polished solid round bar 316 stainless steel that is super strong and can take the harsh marine environment, the Up-N-Out ladder will not fill with water or jam and break like hinged and telescoping hollow tube designs.

**D13** – 3 Steps

**DH3** – 3 Steps

**NEW – YW4** – 4 Steps

**DW3** – 3 Steps
